ABOUT US

Credo Advisory is a leading communications firm specialising in strategic, operational, and tactical communications initiatives. We support governments, development partners, and the private sector to raise awareness, build trust, and effect change with communication programmes. Collaborating with our partners, we develop products, initiatives, and campaigns based on research and industry insights. Credo is committed to using communications to advance the Sustainable Development Goals (SDG), with communication responses that promote transparency, good governance, advocacy, and public enlightenment.

Chief Executive Officer

9 Things to know about the Service Based Tariff

1. On November 1, 2020, electricity distribution companies (DisCos) commenced a Service Based Tariff structure; which means you only pay for electricity supplied.
2. Service Based Tariff allows customers to experience value for money and supports the gradual withdrawal of subsidy in the power sector.
3. DisCos can only review tariff rates after consultations with customers and commitment to improving power supply.
4. DisCos have classified electricity customers into five service bands.
5. Customers receiving less than 12 hours of electricity supply will not experience any increase in tariff.
6. From November 1 to December 31, 2020, Service Based Tariffs are reduced for customers in Bands A, B and C.
7. There is a freeze in tariff band migration; which means currently, electricity customers cannot move to another band, even if services improve.
8. Electricity customers who consume less than 50kWh monthly will benefit from the Lifeline (R1) tariff of ₦4.00/kWh.
9. NERC has created a Situation Room to handle customers' enquiries about the Service Based Tariff.
